STEM CAMP (Science-Technology -Engineering-Math)

What is STEM?

We believe the triune God created the world in six, 24 hour days, as the Bible teaches.

At our STEM Camp we will study the science of his creation, technology to discover his created world, engineering to better use the gifts he has given us and improve the world, math to observe his order in the world, and the brings comfort and knowledge that Jesus paid for all our sins on the cross.

For in six days the LORD made the heavens and the Earth, the sea, and all that is in them. Exodus 20:11a

Why STEM Camp?

Jobs in STEM are doubling each year! Careers in STEM foster valuable 21st century life skills like problem-solving, creativity, and collaboration, while providing opportunities to create positive change and innovate a better world. There has never been a more important time to learn code, game design, app development, robotics engineering, 3D printing, web design, filmmaking, and more. Students entering 3-8th grade can start learning at our STEM Camp.
